WEEE Directive 2012/19/EU (replacing 2002/96/EC)

EU Directive 2012/19/EU defines the recovery of waste of electrical and electronic equipment. As a raw material supplier, we cannot provide a declaration of compliance with said directive, because this is dependent on the final article and therefore not relevant for this OCM Products Ltd product.

The absence of such substances has not been verified by analysis or tests and is declared based on the information available to us from our raw material suppliers. It can therefore not be excluded that trace levels of these substances may be unintentionally present (amongst others because they may be ubiquitous in the environment) or may result from the specific characteristics of the raw materials or the manufacturing process. It is the responsibility of the recipient of our products to ensure that any local applicable rules and legislation are observed.

This document is valid until the next relevant legislative and/or regulatory change.
